

April 12-14, 2022

# Build Back Better

Adapting to Risk  
and Leveraging Opportunities

*The Municipal Insurance Association of British Columbia's***10<sup>th</sup> Annual Risk Management Conference**

---

April 12<sup>th</sup> - 14<sup>th</sup>, 2022

Open to all staff of MIABC member and non-member local governments.

Register early as seating is limited! In the event we have to proceed at a reduced capacity in light of PHO orders in affect at the time, attendance will be determined on a first registered basis.

Early bird registration opens February 1<sup>st</sup>, 2022.

Regular registration opens March 11<sup>th</sup>, 2022 until April 1<sup>st</sup>, 2022.

	<u>Early Bird</u>	<u>Regular</u>
All Access: Conference, including Casino Royale	\$425	\$475
In-Person Conference Only	\$375	\$425
Non-MIABC Member All Access	\$675	\$775
Mini Virtual Conference (MIABC Members)		\$ 75
Mini Virtual Conference (Non-MIABC Members)		\$150

Extra Casino Royale tickets for guests can be purchased for \$100 each.

**Did You Know?**

MIABC members may apply funds from their Risk Management Grant Account to pay for their conference registration.

Use promo code "**GRANT**" during registration to pay directly with your Risk Management Grant!

**Refund Policy**

Delegates are eligible for a full refund up to and including April 1<sup>st</sup>, 2022.

**Registration**

Please use the following link to register: <https://pheedloop.com/miabcrmc2022/site/home/>

**Accommodation**

A special rate of \$284 plus tax per night (single room or double room – 1 person in a room or 2 people in a room) is available at the JW Marriott Parq Vancouver Hotel until March 4<sup>th</sup> or until the room block is sold out. To book your accommodation, please use the following link:

<https://www.marriott.com/event-reservations/reservation-link.i?id=1639607668811&key=GRP&app=resvlink>

MIABC members can deduct the cost of their accommodation at the JW Marriott Parq Vancouver Hotel directly from their Risk Management Grant account by selecting this option in the registration form.

Delegates must still make their own room reservation using the link above.

Questions? Contact us at [rmc@miabc.org](mailto:rmc@miabc.org).

*The health and safety of our communities is of the utmost importance to us. We are prepared to pivot to a fully virtual conference at a later date if necessary. We will be adhering to all Public Health Orders to make sure this event is safe for everyone. You may be required to take a COVID-19 rapid test in order to attend.*

---

## **Join Us for Our First Mini Virtual Conference!**

April 28 - May 26, 2022

Thursdays 10:00am PDT

This year's in-person conference will be followed by our first ever Mini Virtual Conference. Our Mini Virtual Conference will take place on Thursday mornings starting at 10:00 a.m. PDT from April 28<sup>th</sup> to May 26<sup>th</sup>.

Registration for the Mini Virtual Conference is included with registration for the in-person conference. If you're unable to make it to the in-person conference, you can register for the Mini Virtual Conference only for a registration fee of \$75.

What is included in the Mini Virtual Conference? It won't include all of the sessions from the in-person event, however you will have the opportunity to vote for the sessions that you would like to see at the Mini Virtual Conference when registering prior to April 1<sup>st</sup>. The Mini Virtual Conference will include the five sessions that received the most votes.

## Level:

101 - Covers general and/or basic legal, risk management, and/or insurance concepts and examples.

201 - Covers specific legal, risk management, and/or insurance concepts and examples.

301 - Covers complex legal, risk management, and/or insurance concepts and examples.

**Tuesday, April 12****9:00 AM - 9:15 AM****Welcome Address and Opening Remarks****9:15 AM - 10:15 AM****Keynote: Sink Hole or Spring Board? How to Turn Disruption Into Innovation**

Level: 101

Target Audience:

*Rebecca Ryan*, APF, NEXT Generation Consulting, Inc.

We've done something historic - lived through a global pandemic. What will we make of it? Futurist and economist Rebecca Ryan will:

- Share inspiring stories from communities that built back better after devastating events
- Outline the "big 5" trends that will affect local governments in the next 5-10 years
- Introduce one simple concept to get your whole team (or council/board) on board with new innovations for the future

**10:15 AM - 10:35 AM****BREAK****10:35 AM - 12:05 PM****No Money? No Permission? No Problem! How to Create High Impact Pilot Projects in 30 Minutes a Month**

Level: 201

Target Audience:

*Rebecca Ryan*, APF, NEXT Generation Consulting, Inc.

You have lots of ideas, but no time and limited resources. In this session, futurist Rebecca Ryan will share a technique called Strategic Doing that requires NO MONEY, NO PERMISSION, and a VERY SMALL TEAM to get a pilot project designed and tested.

**10:35 AM - 12:05 PM****Risk Management 101**

Level: 101

Target Audience:

*Sandra Mayo*, Risk Management Specialist, MIABC*Jacinta Wu*, Risk Management Advisor, MIABC

In this workshop, Sandra and Jacinta will explore the essential elements of a robust risk management program and share how local government staff should develop and follow a clear risk management decision making process. You will learn to identify common risks that local governments face in providing services to your communities and how to prioritize those risks. Sandra and Jacinta will also share some practical strategies local governments can implement to reduce or transfer risks.

**12:05 PM - 1:05 PM****LUNCH****1:05 PM - 2:05 PM**

Level: 201

Target Audience:

**Plenary: A Matter of Policy: *Marchi v. the City of Nelson* Unpacked***Tom Barnes*, Chief Executive Officer, MIABC*Megan Chorlton*, Director of Member Services & General Counsel, MIABC*Sherman Chow*, Director of Claims, MIABC

When the Supreme Court of Canada released the decision in *Marchi v. the City of Nelson*, a media storm erupted. Headlines proclaimed that local governments could now be sued for negligent snow clearing activities, and reporters began calling MIABC members asking if they now had to double their annual snow clearing budgets. But the decision in *Marchi* did not substantially change the law, rather it simply clarified its application. Join Tom, Megan, and Sherman as they unpack the decision in *Marchi v. the City of Nelson* and explain what it means for local government service delivery.

**2:05 PM - 2:15 PM****BREAK****2:15 PM - 3:15 PM**

Level: 201 / 301

Target Audience:

**Climate Change and Regulatory Liability Risk Preparedness***Adrienne Atherton*, Partner, Civic Legal LLP*Kelsey Stuckert*, Associate, Civic Legal LLP

Climate change impacts, such as increased flooding, are increasing liability risks for municipalities. Adrienne and Kelsey will outline the regulatory liability risks associated with climate change and the potential defences available to local governments. They will discuss the 2021 Intergovernmental Panel on Climate Change (IPCC) Report, provide examples from recent case law, and share tips to reduce such risks.

**2:15 PM - 3:15 PM**

Level: 201

Target Audience:

**Did the NDP Douse the Dumpster Fire?***Aron Bookman*, Partner, Carfra Lawton LLP*Annie Olson*, Associate, Carfra Lawton LLP

On January 29, 2018, Attorney General David Eby called ICBC a “dumpster fire”. He promised change. His office proceeded with a number of efforts to control expert disbursement costs and follow the lead of other provinces with a ‘cap’ on minor injury claims. Those interim steps gave way to the ‘no fault’ regime, which has now been in place since May 2021. In this session, Aron and Annie will review the history of changes made since 2018 and the issues that will arise in the short term, depending on timing of claims. They will address the types of motor vehicle accident claims they have worked on and how those claims are typically defended. From there, they will discuss the results of BC Regulation 4/2021 and share their opinion as to the impact of ‘no fault’ on municipalities.

**2:15 PM - 3:15 PM**

Level: 201

Target Audience:

**The Impact of PTSD in our Emergency Service Workers, and Prevention Techniques***Dave Nelson*, Deputy Property/Casualty Trust Director, Citycounty Insurance Services (CIS)

In this session, Dave will discuss the signs, symptoms, and impact of Post-Traumatic Stress Disorder (PTSD) in our emergency service workers, both professionally and personally. He will share some successful prevention techniques to reduce the impact of PTSD on these essential staff members.

**3:15 PM - 3:35 PM****BREAK****3:35 PM - 4:35 PM**

Level: 201

Target Audience:

**Sensor Solutions to Reduce Municipality Property Risks***Darlene McBride*, Manager, Vancouver Regional Office, HSB Canada

In Canada, an estimated \$1.3 billion is paid in non-weather water claims each year (Munich Re estimate), and that number continues to grow. Municipal and commercial buildings have aging infrastructure making them vulnerable to water, humidity, frozen pipes, and mould type losses. Sensor programs are designed to meet these challenges, using the power of the Internet of Things (IoT) to detect and predict loss events, providing an added layer of risk management for insurers and insureds alike. The best sensor solutions consist of commercial grade sensors, designed for indoor commercial and residential applications, and should measure water, pipe, ambient temperature, and humidity. Join Darlene and her guests, a mechanical engineer and an IoT representative and insurance industry expert, who will share some real case studies of how sensor solutions are mitigating losses, reducing claims, and adding an extra layer of protection.

**3:35 PM - 4:35 PM**

Level: 201

Target Audience:

**Best Practices for Responding to Complaints of Bullying and Harassment***Carolyn MacEachern*, Partner, Young Anderson

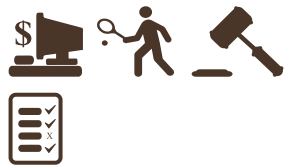

You receive a complaint of bullying and harassment – now what? In this session, Carolyn will outline best practices for responding to a bullying and harassment complaint and ensuring a fair process for all parties. She will also discuss how the benefits of a procedurally fair process include the opportunity for an early and effective resolution of workplace conflict and less likelihood of litigation.

**3:35 PM - 4:35 PM**

Level: 201 / 301

Target Audience:

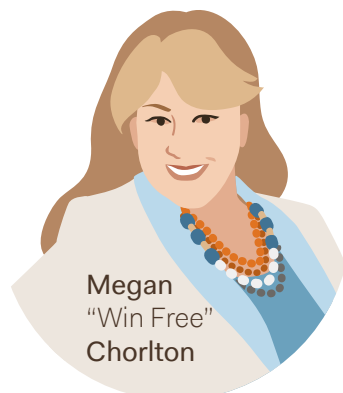

**Responding to Homelessness: Strategic Insights for Local Governments***Jeff Locke*, Associate Counsel, Stewart McDannold Stuart

Jeff has represented local governments in a number of high-profile “tent city” cases before the Courts and regularly provides strategic advice to local governments pertaining to legal duties, options, and responses to homelessness within their communities. In this session, Jeff will draw on his experience and the insights he has gained and:

- Explain the evolution and current state of homeless-related occupations and issues in British Columbia;
- Describe how the Courts have addressed rights, duties, and issues related to the homeless and “occupations”;
- Provide strategic insights and advice as to how local governments can manage issues related to homelessness;
- Provide insights so as to best position communities to receive support in addressing these issues; and
- Identify and address risks arising from homelessness and the management of related issues.

**4:35 PM - 5:35 PM****Welcome Reception**

Reconnect in person with your colleagues, MIABC staff, speakers, and service providers as we wrap up the first day with a drink, some light hors d'oeuvres, and conversation.

You get a grant! And you get a grant!  
And you, and you, and YOU!

Calling all innovators! Do you have a great idea for a risk management project but need money to make it come to life? We want to give you money to make it happen! Click [here](#) for more information on how you could win up to \$10,000 in MIABC Risk Management Grants for your new project!

**Wednesday, April 13****7:30 AM - 9:00 AM****BREAKFAST & REGISTRATION****9:00 AM - 10:15 AM**

Level: 101

Target Audience:

**Build Back Better: Leveraging Opportunities When Recovering from Catastrophes***Tom Barnes*, Chief Executive Officer, MIABC

The past two years have brought a host of catastrophic events to BC. Floods, fires, a heat dome, and a pandemic have required several communities to build back from devastating circumstances. While the recovery process seems like the optimal time to rebuild a more resilient community, local governments may face numerous challenges and obstacles in doing so. Join our CEO, Tom Barnes, as he chats with various communities about their experiences building back better.

**10:15 AM - 10:35 AM****BREAK****10:35 AM - 12:05 PM**

Level: 201

Target Audience:

**Danger Play: Can Risky Play and Adventure Playgrounds Be Managed?***James Yardley*, Partner, Lidstone & Company

Playgrounds have traditionally presented challenges for risk management. The potential that they may contain design elements that not all children can safely navigate, together with uncertain or non-existent supervision and monitoring, often results in designs that minimize risk.

However, in recent years, there has been growing interest among parents, caregivers, and academics in adding risk and more challenge to playgrounds and recreational activities for children. Encountering risks and challenges can help children develop better social and physical skills, increase their creativity, and allow them to have more fun than in safer environments that have less risk and fewer challenges.

In this session, James will explore the risks associated with playgrounds, how those risks can be managed, and whether risk management, risky play, and adventure playgrounds can all get along without somebody getting hurt.

**10:35 AM - 12:05 PM**

Level: 101

Target Audience:

**How Effective Is My Policy?***Sandra Mayo*, Risk Management Specialist, MIABC*Steven Gares*, Legal Counsel, MIABC

A local government policy that articulates clear service levels and the particular circumstances where work is warranted are key components to having a strong defence to any claim. Join our experienced policy development team who will explain the difference between written policies and core policy decisions. They will review the key elements necessary to include when drafting a clear operational policy or documenting a core policy decision. In small peer groups, you will review, analyze, and suggest improvements to each other's policies so everyone will walk out with a new and improved policy at the end of the session. Bring a policy along with you in order to get the most out of this session.

**12:05 PM - 1:15 AM****LUNCH AND AWARDS**

Join us at a sit down lunch to recognize and celebrate members of our community.

**1:15 PM - 2:30 PM**

Level: 101

Target Audience:

**Multi-Party Mediation Workshop - Part 1***Scott Twining*, Partner, Twining, Short & Haakonson*Steve Haakonson*, Partner, Twining, Short & Haakonson

In this highly interactive simulation session, Scott, Steve, and their team of lawyers and claims examiners will guide you through a mock multi-party mediation relating to a construction dispute. In the opening session, they will discuss the key issues in the dispute and the material evidence on liability and damages. You will then be divided into smaller groups, each representing a party to the action (municipality, architect, structural consultant, general contractor, etc.). Part 2 will consist of a mock mediation, with an actual practicing mediator, in an effort to resolve the dispute. Each group will prepare a short mediation brief based on the information discussed in the opening session and then attempt to negotiate a resolution of the claim with the Plaintiff and the other defendants.

**1:15 PM - 2:30 PM**

Level: 101

Target Audience:

**MIABC University: Claims and Legal Services***Sherman Chow*, Director of Claims, MIABC*Samantha Boyce*, Assistant General Counsel, MIABC

Would you like to know more about how your insurance pool handles and responds to claims? Are you a first time attendee of the MIABC's Risk Management Conference? Join Sherman and Samantha to learn more about our claims and legal services.

**1:15 PM - 2:30 PM**

Level: 201

Target Audience:

**How Employee Training Can Reduce Cyber Risk**

*Erin Hutchison*, Product Marketing Manager, Canadian Internet Registration Authority (CIRA)

*Alexandra Daly*, Territory Account Manager, Canadian Internet Registration Authority (CIRA)

Join Erin and Alexandra as they discuss the importance of Cybersecurity Awareness Training and continue to build off their previous webinar on how employee training can help reduce cyber risk.

Nearly all organizations in Canada (93%, according to CIRA's 2021 Cybersecurity Survey) are now implementing some form of training to educate employees on cyber threats and ensure they know what to do in the event of an attack or breach.

In this session, you will get the opportunity to share your own experiences with training, challenges, and best practices through group discussions, trivia, and other engaging activities.

Whether you're looking to launch a training program or looking to get your users more involved in an existing program, you'll have plenty to take away from this interactive session.

**2:30 PM - 2:50 PM****BREAK**

Do you have a risk management idea that will save me money by reducing the number of claims I have to pay out? Maybe you're thinking of upgrading your GIS mapping system to better pinpoint where infrastructure needs repair and maintenance? Or you might need some cash to implement an Enterprise Risk Management Plan?

Consider submitting a pitch for Raptors' Room! Not only can you win some MIABC Risk Management Grant funds, but you'll also make me look good to the MIABC's next CEO (and that's all that really matters)!

**2:50 PM - 4:30 PM**

Level: 101

Target Audience:

**Multi-Party Mediation Workshop - Part 2***Scott Twining*, Partner, Twining, Short & Haakonson*Steve Haakonson*, Partner, Twining, Short & Haakonson

In this highly interactive simulation session, Scott, Steve, and their team of lawyers and claims examiners will guide you through a mock multi-party mediation relating to a construction dispute. In the opening session, they will discuss the key issues in the dispute and the material evidence on liability and damages. You will then be divided into smaller groups, each representing a party to the action (municipality, architect, structural consultant, general contractor, etc.). Part 2 will consist of a mock mediation, with an actual practicing mediator, in an effort to resolve the dispute. Each group will prepare a short mediation brief based on the information discussed in the opening session and then attempt to negotiate a resolution of the claim with the Plaintiff and the other defendants.

**2:50 PM - 4:30 PM**

Level: 101

Target Audience:

**Think Tank: Flood Response***Steven Gares*, Legal Counsel, MIABC

The MIABC's "Think Tank" sessions are interactive discussions that will allow you to discuss common issues and emerging trends with other delegates. Join our panel of facilitators, comprised of member employees, MIABC staff, legal counsel, and other experts, to discuss issues related to flood response.

**2:50 PM - 4:30 PM**

Level: 101

Target Audience:

**Think Tank: Cyber / IT***Marina Sen*, Insurance Services Coordinator, MIABC

The MIABC's "Think Tank" sessions are interactive discussions that will allow you to discuss common issues and emerging trends with other delegates. Join our panel of facilitators, comprised of member employees, MIABC staff, legal counsel, and other experts, to discuss issues related to cyber/IT.

**6:00 PM - 9:30 PM****CASINO ROYALE**

Join MIABC staff, service providers, and your colleagues for a fun and entertaining evening at the MIABC's James Bond Casino Night. There is no set dress code for this event, but feel free to come in your favourite James Bond style outfit.

**Thursday, April 14****7:00 AM - 9:00 AM****BREAKFAST****9:00 AM - 10:00 AM**

Level: 201

Target Audience:

**Problem Properties – A Guide to Managing the Problem***Denise McCabe*, Lawyer, Fulton & Co LLP*Tyson McNeil-Hay*, Lawyer, Fulton & Co LLP*Byron McCorkell*, Community and Protective Services Director, City of Kamloops

Municipalities are increasingly contending with problem properties that are the subject of excessive complaints, call-outs, fires, and criminal activity, whether it's because their owners have allowed the property to become the base for nuisance activities, have simply failed to take care of it, or because the property has been damaged in a fire or other natural disaster brought on by climate change. The nuisance posed by these properties, and the municipality's response, can be a drain on municipal resources and can create a risk of liability.

In this session, Denise, Tyson, and Byron will guide you through the options for remediating these properties, including inspections, bylaw enforcement steps, remedial action requirements, and other legal remedies. The goal of this presentation is to leave you with the knowledge and tools to tackle the problem properties in your communities, whatever the cause, in the most efficient and effective manner.

**9:00 AM - 10:00 AM**

Level: 101

Target Audience:

**Can You “Waive” Goodbye to Liability? A Local Government Primer on Waivers***Lorne Folick*, Partner, Dolden Wallace Folick LLP*Lindsay Nilsson*, Partner, Dolden Wallace Folick LLP

Risk can be transferred in a number of ways through the use of waivers. Join Lorne and Lindsay as they discuss why waivers are used and the steps that local governments should take to ensure that they are enforceable. From facility use agreements to ski lift tickets to electronic waivers, Lorne and Lindsay will cover the dos and the don'ts of waivers and the benefits that local governments gain by using them. Finally, they will review the factors that a court will consider when determining whether a particular waiver will, in fact, provide the holder with a complete defence to a claim.

**9:00 AM - 10:00 AM**

Level: 201

Target Audience:

**Mitigating Risks Through Property Insurance Appraisals**

*Devin Baker*, Manager, Business Development, Suncorp Valuations  
**MIABC Insurance Department**

In this session, Devin and the MIABC's Insurance Department staff will discuss how accurate and current insurance values for assets can be an important risk strategy to mitigate local government risks that may have financial consequences. They will cover topics such as:

- How appraisals tie into asset management;
- What is a replacement cost appraisal and the difference between actual cash value, market value, and replacement cost values;
- How often a replacement cost appraisal should be completed;
- What to consider when revaluating building values after a renovation project; and
- What should be considered when providing actual cash valuations for mobile equipment

**10:00 AM - 10:20 AM****BREAK****10:20 AM - 11:50 AM**

Level: 101

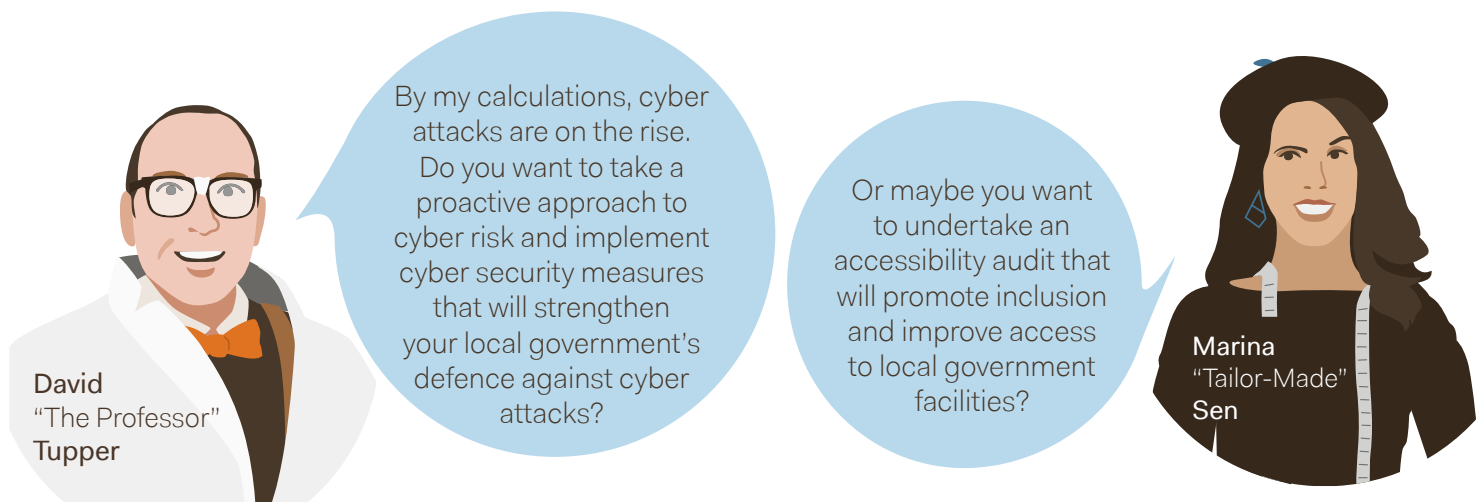

Target Audience:

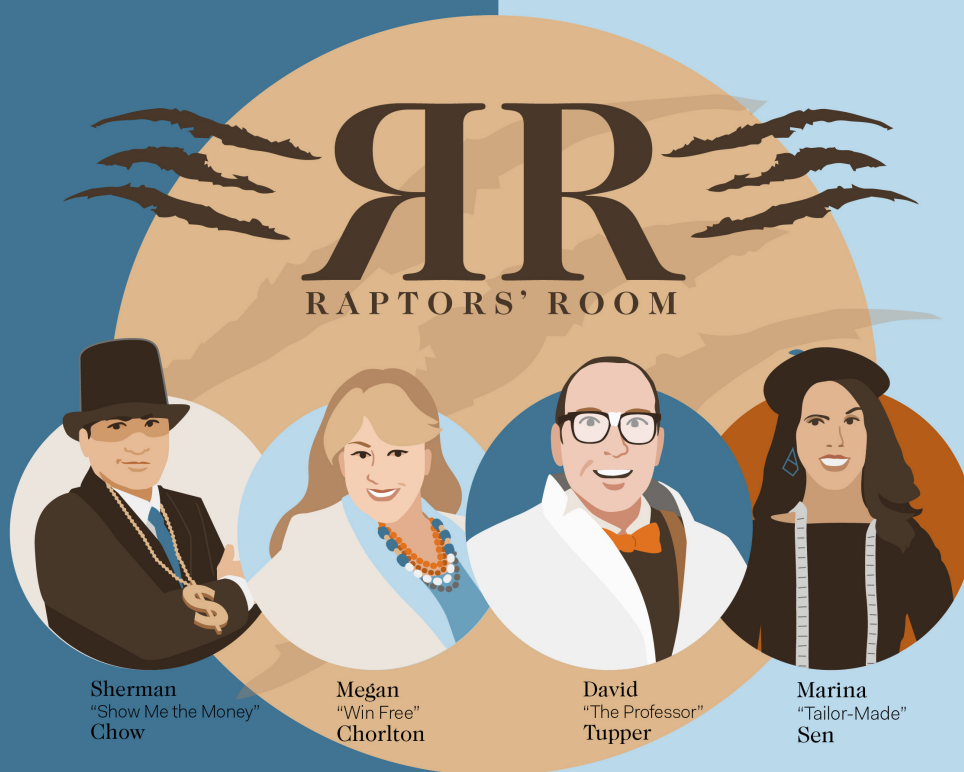

**The Raptors' Room***MIABC Staff*

In this risk management-themed reality session, the Raptors – tough, self-made risk management and insurance professionals – will give MIABC members the chance to make their dreams come true by potentially securing Risk Management Grant funding that could make their communities a safer place to live, work, and play.

**11:50 AM - 12:00 PM****Closing Remarks****12:00 PM****LUNCH**

Stick around and have one final lunch with your colleagues or grab your lunch to go as you head back home for the long weekend.

**Do you have a great idea for a risk management project?  
Do you need money to make your idea come to life?**

Apply now to make a pitch for up to \$10,000 in Risk Management Grant funding at the Raptors' Room session during the MIABC's Risk Management Conference. Modelled after the popular business reality television show, Dragons' Den, MIABC members will have the opportunity to pitch their ideas for risk management projects. Our Raptor judges will critique the pitches based on their efficacy in reducing risk, applicability of the idea to other members, innovation, and creativity.

Three pitches will be selected for members to present during the Raptors' Room session at the 2022 MIABC Risk Management Conference. If selected, each group will have ten minutes to pitch their risk management project idea during the conference, emphasizing how the idea will be effective in reducing risk in your community.

The Judges will then ask questions and provide feedback based on the following weighted criteria:

Efficacy: How effective will the project be in impacting the identified risk?

Transferability: How well will other members benefit from the implementation of this idea?

Innovation: Is the idea innovative and new?

Creativity: Did the group present the pitch in a manner that was interesting and engaging?

Conference delegates will vote on which pitch gets funded during the Raptors Room session on Thursday, April 14th. Local governments not selected to present at the conference will receive a free policy review under the MIABC's Loss Control Program.

[Click here](#) to fill out a proposal form **on or before 5:00 PM, Friday, February 25th, 2022.**

Creativity and theatrical presentations are highly encouraged!

# CASINO ROYALE

The graphic features a dark, textured background with several thick, curved orange lines. In the center, a large orange circle contains the text "CASINO ROYALE" in white, sans-serif font. Below the circle, two white dice with orange pips are shown in a dynamic, floating position. Surrounding the dice are several casino chips in various colors (blue, white, orange, and gold) and patterns. The overall design is sleek and modern, evoking a sense of high-stakes gambling.
